Overview of Debt Market: The major players in the Indian Debt Markets are today are banks, financial institutions, insurance companies and mutual funds. The instruments in the market can be broadly categorized as those issued by corporate, banks, financial institutions and those issued by state/central governments. The risk associated with any investments are - credit risk, interest rate risk and liquidity risk. While corporate papers carry credit risk due to changing business conditions, government securities are perceived to have zero credit risk. Interest rate risk is present in all debt securities and depends on a variety of macroeconomic factors. The liquidity risk in corporate securities market is higher compared to those of government securities. Liquidity in the corporate debt market has been improving due to the entry of more players and due to various measures taken by the regulators in this direction over a period of time. SEBI's directive of a compulsory rating by a rating agency for any [public issuance over 18 months is a case in point. In times to come, dematerialization, entry of private insurance companies and growth of fixed income mutual funds are expected to enhance liquidity in corporate debt market. Portfolio rebalancing: Portfolio Rebalancing due to Short Term Defensive Consideration: Due to market conditions, the AMC may invest beyond the range set out in the asset allocation. Such deviations shall normally be for a short term and defensive considerations as per para 1.14.1.2 of SEBI Master Circular on Mutual Funds dated June 27, 2024, and the fund manager will rebalance the portfolio within 30 calendar days from the date of deviation. Rebalancing due to Passive Breaches: Pursuant to Paragraph 2.9 of SEBI Master Circular for Mutual Funds dated June 27, 2024 read with SEBI circular no. SEBI/HO/IMD/PoD2/P/CIR/2025/92 dated June 26, 2025, in the event of any deviations from the mandated asset allocation as mentioned above due to passive breaches, portfolio rebalancing will be carried out by the AMC/fund manager within 30 Business Days of the date of the said deviation. This rebalancing will be subject to prevailing market conditions and in the interest of the investors. In case the portfolio of the Scheme is not rebalanced within the period of 30 Business Days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee of the AMC. The Investment Committee, if it so desires, can extend the timeline for rebalancing up to 60 Business Days from the date of completion of mandated rebalancing period.
